As of June 23, 2004

Tax practitioners who are considering the use of a software package to prepare Arizona tax forms should verify with the Department of Revenue (DOR) that the software considered has been approved. All tax forms must be approved by the department prior to usage. Each specific form must have approval. The following is a list of those tax software vendors who are approved for the 2003 income tax forms, various business forms and reports, and miscellaneous forms.

NOTE: Some of listed software packages do not provide sufficient room for the preprinted DOR label. Please cut the label to fit the available space or place it so that pertinent information is not covered.
